People Leave Tents in Fields

Summer Reading Festival is one of England's biggest music festival, and thousands of people visit it every year.

Last year, organizers canceled the festival because of the coronavirus. Around 100,000 festival goers went to Reading last weekend, and they left tons of rubbish in the fields. There were mostly empty tents and plastic cups. The most difficult things to recycle are the tents, which usually go to landfills, and they take up to 10,000 years to decompose.

The problem is that shops sell tents as items you use one time, so people do not think that they could use them more than once. In 2019, people from Reading saved around 300 tents which they then use themselves.

Swim Around Britain

Extreme sportsman Ross Edgley is planning to swim around Britain, and he will not touch dry land once.

The swim will be around 2,700 kilometers long and will take him 100 days. He will burn around 1 million calories. Even a thing like eating will be a problem because his tongue and throat can swell up in all that salty water. The condition is called 'salt mouth'. Ross will have to eat smoothies and protein shakes.

The human body is simply not meant to be in the sea for 100 days. When Ross went for a 48-hour, non-stop swim, he managed to get trench foot. That is a condition when the skin becomes black and dies off.

If all goes well, he will finish in London on the 8th of September.

Drone Racing – Sport of the Future

Drone racing is an exciting new sport that has become popular faster than no other sport before it. Pilots steer small and lightweight, but high-powered drones along courses with obstacles.

They fly through gates and around flags at speeds of over a hundred miles an hour.

They control the drones using VR (virtual reality) – like headgear. Every drone has a camera attached to it so that spectators can also view flights either on a big screen or with special headgear.

The races take place either outdoors – in big stadiums, or indoors in sports arenas. Competitions are short because the battery time of drones is limited.

Although drone racing started only a few years ago there are already international competitions that take place all over the world. In professional leagues, drone pilots compete for thousands of dollars. In March, the World Drone Prix was staged in Dubai. A 16-year old British teenager won the race and received a prize money of 250 000 dollars.

A Perfect Diamond

In 2022, miners in Canada discovered a rough diamond that weighed 271 carats. Diamond cutters cut and polished it, and they made a 102-carat oval diamond.

The auction house Sotheby's in Hong Kong sold the diamond for 15.7 million dollars. A man from Japan bought the stone, and he named it after his second daughter. A year earlier, the same man bought another big diamond, and he named it after his first daughter.

The diamond is very special because it is a rare white diamond. It has the right color and it is very clear, which makes it perfect and very expensive.

Lion Tug of War

A zoo in England sells people a chance to play tug of war – a game in which a group of grown-ups pull the opposite ends of rope with tigers and lions. A keeper from the zoo said that they saw that other zoos do it, so they tried it too.

He says that it is an exercise for the animals and an education for the people – they can really understand how big and strong these cats are.

However, some people criticize the zoo. They say that it is not normal for the animals and that the zoo is doing it just to earn money and be special.
